

Jim Morgan, Chairman of the Board of AGC of St. Louis; Gabielle Fields, a student at The Construction Careers Center; and Gina Washington, Vice Principal, The Construction Careers Center.

Associated General Contractors of St. Louis, Construction Careers

Center: Since 2001, students in the St. Louis area have had the chance to attend a high school with a unique twist, a focus on construction. The Construction Careers Center, founded by the Associated General Contractors of St. Louis and the St. Louis Construction Industry, graduated its first class in June 2005. Students, from grade 9

through 12 receive a solid foundation in academics, a broad exposure to the construction industry and relevant vocational education preparation.

As student Billy Rooks said, "I would recommend CCC to anyone interested in the construction trades. It provides hands-on training in a number of fields...I highly recommend CCC to those who are undecided on their future or curious about the field of construction."
